

Ultradur® B 4040 G3 FR

(Flame Retardant)

PBT/PET Blend (polybutylene terephthalate/polyethylene terephthalate)

BASF
The Chemical Company

Ultradur B 4040 G3 FR looks hot but its not.

*Oven Control Panel
(Molded in Custom Color White)*

Performance Solutions:

Ultradur B 4040 G3 FR is a UL 94 V0, 5VA flame rated, 15% glass reinforced PBT/PET blend, formulated to not only withstand exposure to high heat, but to retain its excellent color, surface finish and high gloss. It can be used as an alternative for thermoset and painted metal applications such as oven consoles and control panels.

Major appliance manufacturers utilize the material on a variety of oven applications to benefit from part consolidation and increased productivity over other materials such as thermoset BMC and painted steel.

Currently available in black, white and bisque, Ultradur B 4040 G3 FR can also be custom color matched to meet the needs of the application and customer. Remember: "Looks hot, but it's not.....Ultradur B 4040G3 FR."

Key Benefits:

- UL 94 V0, 5VA flame rated
- Excellent surface appearance
- High temperature resistance
- Stain resistance
- Available in custom colors
