To whom it may concern:

Re: **Styrolux® 3G55**
Styrolux® 656 C
Styrolux® 684 D
Styrolux® 3G33
Styrolux® 3G46

FDA

The referenced product complies with the requirements of Food and Drug Administration 21 CFR Section 177.1640. The polystyrene product identified above may be safely used in articles or components of articles intended for use in contact with food, subject to the provisions of this section. This polymer contains residual styrene monomer < 0.5 weight percent as described in §177.1640(c).

Appropriate processing conditions of the articles must be applied. The suitability of the articles for the application concerned, including effect on odor and taste and the observance of any given migration limitations, must be reviewed in each case by the converter or packer.

As the supplier of the raw material, we cannot make any statement with regard to the molded components made from this material since this may be process dependent.

If you have any questions, please feel free to call me at (734) 324-6210.

Sincerely,

BASF Corporation
