To Whom It May Concern:

Please be advised that based on the information available to us from our raw material suppliers, the current products offered in the product lines listed above do not contain as intentional additives, Cadmium and its compounds, Mercury and its compounds, Lead and its compounds and Hexavalent Chromium compounds at a total concentration of 100 ppm or higher. To the best of our knowledge, none of these materials are generated during production. We do not specifically run any analysis on our raw materials or end product to measure for these materials.

As the supplier of the raw material, we cannot make any statement with regard to the extruded components made from this material since this may be process dependent.

If you have any questions, please feel free to contact me.
